Committed to excellence

28 Feb, 2018 | [Share](#)

Scan Global Logistics is proud to announce that our Nordic offices have regained and achieved new certifications.

Demonstrate commitment

Scan Global Logistics has achieved a new multi-site ISO certification for our Nordic offices and regained the OHSAS certification in Sweden. The certifications attest that Scan Global Logistics work according to the same rules, processes and policies across all Nordic offices.

“It is important for us to demonstrate our commitment to excellence towards our customers and business partners to assure them that we conduct business in accordance with globally recognized standards”, says Martin Andersen, Group head of Excellence, Performance Mgmt. & Quality at Scan Global Logistics.

Certifications

Until now, Scan Global Logistics’ Nordic offices held individual certifications for ISO 9001 (quality) and ISO 14001 (environment). On December 2017, we had an external audit of our quality system and were approved to hold the multi-site certification (ISO 9001 and ISO 14001) for all locations in Sweden and Denmark, which means that we now hold one certificate for several companies and countries.

Apart from the multi-site certification, Airlog Group has received the Child Certificates for ISO 9001 (quality) and ISO 14001 (environment).

Scan Global Logistics’ Swedish offices have regained the OHSAS 18001:2007 certificate (working environment).
