# Corona virus (COVID-19) Advisory: Cargo Movement

17 Mar, 2020 | [Share](#)

## Cargo is moving across borders - Corona Virus (COVID-19)

Following up on the latest legislative developments connected to outbreak of COVID-19, we wish to emphasize that borders across the globe remain open for cargo.

There are no known restrictions in place for cargo movements across borders, and whereas it's expected there will be slight delays when crossing borders we do not expect major delays due to this.

Overall the situation is generally impacted by lower availability of capacity primarily on Airfreight, just as we also experience significant price volatility given supply and demand is changing day by day. We do however stay committed to finding cost efficient solutions for all customers limiting the impact to your business.

Summing up we want to firmly state again, that it is full steam ahead in terms of cargo movement and we will keep finding solutions to the daily challenges.

We appreciate your continued understanding in this critical situation and if there are any questions please feel free to reach out to your regular contact at Scan Global Logistics.

Stay safe!
