## SGL Trainee Program

18 Oct, 2016 | Share 

### Do you want to become a trainee in a fast moving world?

In Scan Global Logistics A/S, we offer our trainees an internal training program as well as practical experience and online courses. The SGL Trainee Program provides a unique start to your career and a great opportunity to develop in to a key player in our global organization.

On October 11th and 12th, we arranged the second module for the SGL trainees that started their journey in 2015. They had a very exciting program lined up for them.

They were introduced to SGL's product range (Solution, Road, Sea Freight, Air Freight and Aid, Development & Projects), in order to give them a better understanding of us as a company and what we offer.

They were given a tour in SGL's 60.000 square meters warehouse located in Herning, a tour at the premises of Billund Airport and a tour at Aarhus harbor. The two days were challenging, developing, engaging and fun.

We are always looking for new talents, so if you want to become a trainee in a fast moving world where not two days are alike, please send us your application.
