

THE NETHERLANDS

**Did you know
that Amsterdam's
oldest warehouse
is 500 years old?**

Today, the old red-brick warehouse is an apartment building. We know its secret and all other secrets to providing value-driven logistics solutions in the Netherlands.

Impressive and essential port facilities make The Netherlands a logistics hotspot to Europe. Our first-class infrastructure and sense of organizing combined offer you top warehouse and fulfillment facilities and best-in-class last-mile delivery.

Whether The Netherlands is your point of import, export, or critical market, we provide the local insights and extended service level to make your business excel. Increasingly, Supply Chain is becoming a strategic differentiator. We make sure that the difference is in your favor.

In our line of business, having the right supply chain and logistics partner is pivotal. I am happy to say that with Scan Global Logistics, we have found everything we are aiming for. Not only are they on time, on target, and on price point, they also manage to assist with vital customer support issues. We can recommend Scan Global Logistics in all business aspects.
